McNEILUS BECOMES EXCLUSIVE DISTRIBUTOR OF PERKINS AUTOMATED CONTAINERS

Perkins containers easily integrate with the new Latitude Integration residential collection system on Meridian Front Loaders

DODGE CENTER, Minn. (June 8, 2016) – McNeilus Truck & Manufacturing, Inc., an Oshkosh Corporation (NYSE:OSK) company, is now the exclusive distributor of Perkins automated containers.

“Providing customers with more options to best fit their needs is one of our primary objectives, and this initiative with Perkins helps us accomplish that,” said Grant Wildgrube, McNeilus Truck & Manufacturing product manager-front loaders & CNG. “We’re able to offer a superior choice in automated container collection with McNeilus Meridian™ Front Loaders, and customers have the advantage of working with two proven market leaders.”

When paired with the new Latitude Integration residential collection system, the Perkins automated container offers McNeilus customers another option for their residential front loader collection routes. The Perkins container, as well as any other brand of front loader residential container, is easy to integrate with the Meridian™ Front Loader.

A single joystick offers easier operation – tap a single button to toggle from the automated dump cycle to container operations. Simple, precise sensors on the body, arms and forks provide operator assurance and premier functionality, and the in-cab McNeilus CODE™ display offers intuitive functions and superior troubleshooting. All providing the flexibility you need in a residential collection vehicle.

The Perkins automated container features heavy duty construction, and the proven design of the arm tipper is built for consistent performance. It also offers a 4.4 cubic-yard capacity, 500-pound lift capacity and handles residential containers from 32-96 gallons.

“Perkins and McNeilus believe in offering customers quality products and services. This partnership continues that tradition, and we’re excited to work together to provide the

best in residential front loader collection,” said James Rimsa, Design Engineer at Perkins Manufacturing.

All McNeilus products and services are also supported by a nationwide network of branch locations and service centers. To learn more about Perkins automated containers and other McNeilus innovations, stop by booth #1402 or visit www.mcneiluscompanies.com.

Forward-Looking Statements

This press release contains statements that the Company believes to be “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact, including, without limitation, statements regarding the Company’s future financial position, business strategy, targets, projected sales, costs, earnings, capital expenditures, debt levels and cash flows, and plans and objectives of management for future operations, are forward-looking statements. When used in this press release, words such as “may,” “will,” “expect,” “intend,” “estimate,” “anticipate,” “believe,” “should,” “project” or “plan” or the negative thereof or variations thereon or similar terminology are generally intended to identify forward-looking statements. These forward-looking statements are not guarantees of

future performance and are subject to risks, uncertainties, assumptions and other factors, some of which are beyond the Company's control, which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. These factors include the cyclical nature of the Company's access equipment, commercial and fire & emergency markets, which are particularly impacted by the strength of U.S. and European economies and construction seasons; the Company's estimates of access equipment demand which, among other factors, is influenced by customer historical buying patterns and rental company fleet replacement strategies; the strength of the U.S. dollar and its impact on Company exports, translation of foreign sales and purchased materials; the expected level and timing of U.S. Department of Defense ("DoD") and international defense customer procurement of products and services and funding thereof; the Company's ability to utilize material and components which it has committed to purchase from suppliers; risks related to reductions in government expenditures in light of U.S. defense budget pressures, sequestration and an uncertain DoD tactical wheeled vehicle strategy; risks related to the Company's future defense segment results depending upon the outcome of a competitor's lawsuit regarding the JLTV production contract award to the Company; the Company's ability to increase prices to raise margins or offset higher input costs; increasing commodity and other raw material costs, particularly in a sustained economic recovery; risks related to facilities expansion, consolidation and alignment, including the amounts of related costs and charges and that anticipated cost savings may not be achieved; global economic uncertainty, which could lead to additional impairment charges related to many of the Company's intangible assets and/or a slower recovery in the Company's cyclical businesses than Company or equity market expectations; projected adoption rates of work at height machinery in emerging markets; the impact of severe weather or natural disasters that may affect the Company, its suppliers or its customers; risks related to the collectability of receivables, particularly for those businesses with exposure to construction markets; the cost of any warranty campaigns related to the Company's products; risks related to production or shipment delays arising from quality or production issues; risks associated with international operations and sales, including compliance with the Foreign Corrupt Practices Act; the Company's ability to comply with complex laws and regulations applicable to U.S. government contractors; cybersecurity risks and costs of defending against, mitigating and responding to a data security breach; and risks related to the Company's ability to successfully execute on its strategic road map and meet its long-term financial goals. Additional information concerning these and other factors is contained in the Company's filings with the Securities and Exchange Commission. All forward-looking statements speak only as of the date of this press release. The Company assumes no obligation, and disclaims any obligation, to update information contained in this press release. Investors should be aware that the Company may not update such information until the Company's next quarterly earnings conference call, if at all.
