McNEILUS INTRODUCES LATITUDE INTEGRATION: SIMPLIFIED RESIDENTIAL COLLECTION

Meridian Front Loaders with Latitude Integration easily connect with any brand of front loader residential containers

DODGE CENTER, Minn. (June 7, 2016) – McNeilus Truck & Manufacturing, Inc., an Oshkosh Corporation (NYSE:OSK) company, has introduced the Latitude Integration residential collection system. Meridian™ Front Loaders with Latitude Integration can connect with any brand of front loader residential container, including Perkins automated container, Curotto-Can™ Automated Carry Can, Bayne carry cans, and McNeilus' own Street Smart Carry Can. .

“As McNeilus continues to innovate, we have focused in on the residential collection market,” said Grant Wildgrube, McNeilus Truck & Manufacturing product manager-front loaders & CNG. “The addition of Latitude Integration is just one of the great innovations our efforts have produced. We’ve also announced that McNeilus is the exclusive distributor of Perkins automated cans, providing our customers with another option for automated front loader collection.”

From cab to tailgate, Latitude Integration residential collection makes connection and operation with any brand of front loader residential container easier. A sensor system on the body, arms and forks provide operator assurance and premier functionality. Single joystick controls operate the arms and forks, as well as automated container functions. Tapping a single button allows the operator to toggle from the automated dump cycle to container operation. The proportional controls are also smoother and more responsive to the operator.

McNeilus CODE™ and its in-cab controls display make it easier to see which functions are activated and offer superior troubleshooting capabilities. As another simplified innovation, the sensor system on the body, arms and forks is easier to access and service because the sensors are external to the hydraulic cylinders.

With flexibility in mind, Latitude Integration residential collection, allows residential controls to be connected on both sides in dual-drive front loaders. The package also combines with several optional features, including Auto Level, which automatically levels the residential container during the dump cycle, and Cab Protection, which prevents the operator from inadvertently rolling the container into the cab, eliminating costly damage.

Forward-Looking Statements

This press release contains statements that the Company believes to be “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact, including, without limitation, statements regarding the Company’s future financial position, business strategy, targets, projected sales, costs, earnings, capital expenditures, debt levels and cash flows, and plans and objectives of management for future operations, are forward-looking statements. When used in this press release, words such as “may,” “will,” “expect,” “intend,” “estimate,” “anticipate,” “believe,” “should,” “project” or “plan” or the negative thereof or variations thereon or similar terminology are generally intended to identify forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties, assumptions and other factors, some of which are beyond the Company’s control, which could cause actual results to differ materially from those expressed or implied by such forward-looking

statements. These factors include the cyclical nature of the Company's access equipment, commercial and fire & emergency markets, which are particularly impacted by the strength of U.S. and European economies and construction seasons; the Company's estimates of access equipment demand which, among other factors, is influenced by customer historical buying patterns and rental company fleet replacement strategies; the strength of the U.S. dollar and its impact on Company exports, translation of foreign sales and purchased materials; the expected level and timing of U.S. Department of Defense ("DoD") and international defense customer procurement of products and services and funding thereof; the Company's ability to utilize material and components which it has committed to purchase from suppliers; risks related to reductions in government expenditures in light of U.S. defense budget pressures, sequestration and an uncertain DoD tactical wheeled vehicle strategy; risks related to the Company's future defense segment results depending upon the outcome of a competitor's lawsuit regarding the JLTV production contract award to the Company; the Company's ability to increase prices to raise margins or offset higher input costs; increasing commodity and other raw material costs, particularly in a sustained economic recovery; risks related to facilities expansion, consolidation and alignment, including the amounts of related costs and charges and that anticipated cost savings may not be achieved; global economic uncertainty, which could lead to additional impairment charges related to many of the Company's intangible assets and/or a slower recovery in the Company's cyclical businesses than Company or equity market expectations; projected adoption rates of work at height machinery in emerging markets; the impact of severe weather or natural disasters that may affect the Company, its suppliers or its customers; risks related to the collectability of receivables, particularly for those businesses with exposure to construction markets; the cost of any warranty campaigns related to the Company's products; risks related to production or shipment delays arising from quality or production issues; risks associated with international operations and sales, including compliance with the Foreign Corrupt Practices Act; the Company's ability to comply with complex laws and regulations applicable to U.S. government contractors; cybersecurity risks and costs of defending against, mitigating and responding to a data security breach; and risks related to the Company's ability to successfully execute on its strategic road map and meet its long-term financial goals. Additional information concerning these and other factors is contained in the Company's filings with the Securities and Exchange Commission. All forward-looking statements speak only as of the date of this press release. The Company assumes no obligation, and disclaims any obligation, to update information contained in this press release. Investors should be aware that the Company may not update such information until the Company's next quarterly earnings conference call, if at all.
